Housing Needs and Strategy for Addressing Housing Needs (9.0 & 9.1)

Based on information provided by the Consolidated Plan, information provided by the U.S. Department of Housing and Urban Development, and other generally available data the Authority has analyzed the housing needs of low-income, very low, and extremely low-income families who reside in the Authority's nine county jurisdiction. Included in the analysis are housing needs of exceptionally low-income families, elderly families and families with disabilities, and households of various races and ethnic groups residing in the jurisdiction.

The housing needs of each of these groups have been identified separately. The identification of housing needs took into account issues of affordability, supply, quality, accessibility, size of units, and location. The identified racial categories were determined for those groups with disproportionate needs in comparison to the needs of the category as a whole. The groups identified have a percentage of persons in the category of needs who are members of a particular race that shows at least 10 percentage points higher than the percentage of persons in the category as a whole.

Within the Authority's jurisdiction, not all cities and counties have their own Consolidated Plan. However, the State of Mississippi's Consolidated Plan accurately describes the housing needs of the jurisdiction. Additional data was obtained by using the U.S. Census Bureau Internet site and data supplied for the Comprehensive Housing Affordability Strategy (CHAS) for the State of Mississippi and the Golden Triangle Planning and Development District.

The Authority has also analyzed the housing needs of the families on the Public Housing and Section 8 Housing Choice Voucher (HCV) waiting lists. Included in the analysis are housing needs of extremely, very low, and low-income families, elderly and families with disabilities, and households of various races and ethnic groups on the waiting lists. Data listed in the tables below represents characteristics of eligible households only.

The housing needs of each of these groups have been identified separately. The identification of housing needs took into account issues of affordability, supply, quality, accessibility, size of units, and location. The Authority's waiting lists are computerized. Waiting lists analysis is indicated on the following tables:

Strategies for Addressing Affordable Housing Needs

Through analysis of the Authority's jurisdiction and waiting lists, extremely low-income families, families with children, very low-income families, working poor families, persons with disabilities, and Black (non-Hispanic) families continue to be the least well served in the Authority's jurisdiction. As required, the information provided includes:

- Households with incomes below 30% of the area median (extremely low-income).
- Elderly households and households with disabilities.
- Identification of household race.

The Authority intends, to the maximum extent practicable, to address the communities' housing needs described above. We have focused on the identified groups this past year. The Authority's efforts over the next year will continue to center on addressing affordability, supply of housing resources, quality of available housing, and accessibility within the scope of federal regulation and policy.

The following is a brief description of the Authority's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year:

Need: Shortage of affordable housing for all eligible populations.

Strategy 1: Maximize the number of affordable units available to the PHA within its current resources by:

- A. Employing effective maintenance and management policies to minimize the number of public housing units off-line
- B. Reducing turnover time for vacated public housing units
- C. Reducing time to renovate public housing units
- D. Maintaining or increasing Section 8 Housing Choice Voucher Program (HCV) lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction

Strategy 2: Increase the number of affordable housing units by:

- A. Apply for additional HCV units should they become available
- B. Pursue housing resources other than public housing or HCV tenant-based assistance

Need: Specific Family Types: The Elderly.

Strategy 1: Target available assistance to the elderly:

- A. Apply for special-purpose vouchers targeted to the elderly, should they become available.

Need: Specific Family Types: Families with Disabilities

Strategy 1: Target available assistance to Families with Disabilities:

- A. Apply for special-purpose vouchers targeted to families with disabilities, should they become available.

Other Housing Needs & Strategies: Reasons for Selecting Strategies

- A. Funding constraints
- B. Staffing constraints

Additional Information **(10.0)**

A. Progress in Meeting Mission & Goals

During fiscal year 2010 the Authority maintained a vacancy rate for the Public Housing Program of 3% and thus far during fiscal 2011 the Authority has averaged a 4% vacancy rate. During calendar year 2010 for the Housing Choice Voucher Program (HCV) the average vacancy rate was 11%, however, this was during the lease-up period for 497 THU units. Thus far during calendar year 2011, the HCV Program has an average vacancy rate of 1% of the number of units ACC funding will support. This exceeds the established goal for both the Public Housing and HCV Programs. PHAS scoring remained on hold for fiscal year 2010. The Authority scored 99% on SEMAP for fiscal year ending June 30, 2010 which well exceed the established goal of 90%. The Authority continued to renovate and modernize public housing units through the ongoing Capital Fund Program. During the year outreach efforts were done on a continuous basis to potential voucher landlords through one-on-one program briefing efforts by the Director of Section 8 Programs and other staff. Two HCV homeownership closings have been achieved so far this fiscal year. Public housing security continued through above-baseline security contracts with local law enforcement funded through the Capital Fund Program. Fair housing and equal opportunity measures to ensure access to assisted housing and providing suitable living environment for families were included in going staff training. Participants were thoroughly briefed on these measures during ongoing housing choice program briefings.

B. Significant amendment and Substantial Deviation

The Mississippi Regional Housing Authority IV defines “Substantial Deviation” and “Significant Amendment or Modification” as actions that cause:

- 1) Major changes to rent or admission policies or organization of waiting lists.
- 2) Additions of non-emergency large capital work items (not included in the current Annual Statement or Five Year Action Plan) or changes in use of replacement reserve funds under the Capital Funds.
- 3) Any change with regard to demolition or disposition, designation, homeownership programs, or conversion activities.

A change of estimated cost, estimated funding amounts to actual funding amounts awarded by HUD, or a change of work items between projects or planned years is not considered a “substantial deviation” or significant amendment or modification”. An exception to this definition will be made for any of the above that is adopted to reflect changes in HUD regulatory or statutory requirements.

Under such actions the Authority will notify the Resident Advisory Council, the Board of Commissioners, and the Department of Housing and Urban Development of any “substantial deviation” or “significant amendment or modification” to the current Annual Statement or Five Year Action Plan. As work progresses, the Authority recognizes that conditions may change from time to time from the original anticipated project, that there may be changes to certain rent and admission policies and that there may be need to change programs and activities. Changes of estimated cost, estimated funding amounts awarded by HUD, or a change of work items between projects or planned years is not considered a “substantial deviation” or “significant amendment or modification”. An exception to this definition will be made for any of the above that is adopted to reflect changes in HUD regulatory or statutory requirements.
